

Deanna Ray, Jackie Moseman, Darla Moseman, Sarah Wallace, Jane Johnson, Leigh Longwell and Christine Blevins. (All names phonetic.) They are members of the Oakland Women's Club at Oakland, Nebraska. Would you please be recognized. Thank you for attending the Legislature. Senator Peterson, may we recognize you for a moment here.

SENATOR R. PETERSON: Mr. Speaker and fellow colleagues, it is indeed a pleasure this morning to....we have a fine lady here, our Nebraska Honey Queen, Miss Brynner (phonetic) from Belden, Nebraska, is in our midst and I will introduce her further in just a minute, but she is.... the Eastern Nebraska Honey Producers have....the pages have passed out some honey bears for you and Miss Brynner and I and the Nebraska Honey Producers would like to sweeten you people up a little bit. I've got some bills coming hopefully in the next week or so, so maybe this will help. You've got to do anything you can.....yes, they are wanting to hand them back, that was why I mentioned that. Maybe we would get them back, but we would like to have you read the pamphlets that were sent around with the honey bears. The bee industry is very important to Nebraska and pollenization, two million plus dollars of value to alfalfa pollenization and after all when you eat this honey it is nature's most healthful food and so get on the bandwagon and eat all the honey you can because it is a very healthful food. So in the next few days don't forget to squeeze your honey bear. At this time I would like to introduce the Nebraska Honey Queen who is under the South balcony, Miss Brynner, a senior in Belden High School. She is under the South balcony and with her mother, Claudette Brynner, and our state apiarist, Mary Ann Ellis (phonetic) from over at the Department of Agriculture and we think it fits in with Ag Week and Ag Day, today, so would you give those fine people a hand and show your appreciation for the honey.

SPEAKER NICHOL: Please rise. Welcome to the Legislature. Thank you, Senator Peterson. 362.

CLERK: Mr. President, LB 362 offered by Senator Hannibal. (Read title.) The bill was read on January 17, referred to Urban Affairs. The bill was advanced to General File. There are Urban Affairs Committee amendments, Mr. President.

SPEAKER NICHOL: Senator Newell, are you taking the committee amendments?

SENATOR NEWELL: Mr. President, the committee amendments are just clarifying the intent of the introducer. Senator Vickers, who is kind of picky, wanted these things spelled
